

What parents and grandparents have said...

*“I cannot put into words how thankful we are for Main Street UMC Preschool. When I think of what a child needs to learn in preschool, it really comes down to listening and being kind. You have taught him that and more. Thank you for preparing him to go to kindergarten and for loving him just as we do!” - The Wilson Family*

**“Your preschool has been such a wonderful, positive influence on our daughter, and her older sister, who attended here as well. The attention, care, and dedication of your staff are remarkable. As an educator myself, I appreciate all you do to provide a solid foundation for the early years of a child’s life, and for all you do to prepare them for “big school”. We will miss Main Street Preschool.” – The Dotson Family**

“I don’t really think the words thank you can say everything I need and want to say to you. Thank you for making my kids’ experience at Main Street as memorable as mine was there. Thank you for introducing them to the love of learning. Thank you for the love and friendship that has grown over the years. Thank you for EVERYTHING!” – The Norman Family

*“It has been quite the journey for us and you have hung right in there! We appreciate your wisdom and sound advice. We are grateful for Main Street Preschool and you!” - The Decker Family*

“Once again, thanks for all you do to ensure my babies have a great school year! My son is now prepared and excited for “Big kid school”. My youngest has grown so much and is already looking forward to the fall.” – The Carson Family

“I appreciate everything all of these ladies have done for us. I am a working mother and it makes a big difference having the peace of mind that my children are well cared for while I am not there. I feel very comfortable and happy that my children are at your school.” – The Garrison Family

*“As a kindergarten teacher, this is exactly what I am looking for to prepare my child” – The Ford Family*

My son’s kindergarten teacher said that he was “head and shoulders” above the others in his class as far as understanding walking in the line, sitting and paying attention, and being able to conduct himself appropriately. Thank you so much! – Jennifer
